RESTRICTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-5, 7-12, 21-29, 39, 45, drawn to the integral design of the attachment device and the communication device, classified in class 379, subclass 433.01.
 - II. Claims 1, 6, 13-17, 37-38, 40-44, drawn to detachable design of the attachment device and the communication device, classified in class 379, subclass 446.
 - III. Claims 1, 18, 19, 30-34, 36, drawn to the slidable attachment device, classified in class 379, subclass 433.12.
 - IV. Claims 1, 18, 20, 30-35, drawn to the rotatable attachment device, classified in class 379, subclass 433.13.

2. The inventions are distinct, each from the other because:

Inventions Groups I to IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions involve Group I which requires the attachment device and the communication device to be integral, it can not be use together with a detachable one as it is required in Group II, or the slidable and rotatable attachment in Groups III and IV respectively.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject

Art Unit: 2642

matter. The search required for Group I is not required for other Groups, restriction for examination purposes as indicated is proper.

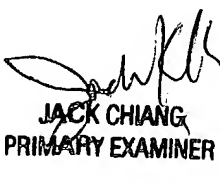

4. A telephone call was made to Mr. Michael Gilman on 12-16-04 to request an oral election to the above restriction requirement. Mr. Gilman called back on 12-17-04 to request a written restriction.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack Chiang whose telephone number is 703-305-4728. The examiner can normally be reached on Mon.-Fri. from 8:00 to 6:30.
